Read this before mounting or connecting TCM.

- This TCM was tested and verified to be of good working condition. It has been programmed according to specifications that you provided Painless Performance through the TCM re-flash online form.
- Before connecting this TCM to your fuel injection harness make sure the vehicle's battery is disconnected.
- Do not weld on the vehicle with this TCM plugged into your fuel injection harness as this will void your warranty.
- Make sure to mount the TCM away from excessive heat as overheating the TCM will cause premature failure and will void your warranty.
- Do not remove the sticker or stamp from the TCM as this will void your warranty.

Connecting the TCM to the F.I. Harness:

1. Find suitable place to mount TCM. Custom mounting brackets will be required to mount it.
2. Route the connector labeled TCM on your harness to the TCM.
3. Gently push the connector into the TCM while moving the latching lever into its locking place.

Painless Performance Limited Warranty and Return Policy: Chassis harnesses, fuel injection harnesses and Striker ColdShot units are covered under a lifetime warranty. All other products manufactured and/or sold by Painless Performance are warranted to the original purchaser to be free from defects in material and workmanship under normal use. Painless Performance will repair or replace defective products without charge during the first 12 months from the purchase date. No products will be considered for warranty without a copy of the purchase receipt showing the sellers name, address and date of purchase. You must return the product to the dealer you purchased it from to initiate warranty procedures.
